**Welcome and Introductions**

Lee Dulgeroff called the meeting to order at 1:00 p.m.

**SDUSD Facilities Vision Discussion on the NEXT generation of Learning Environments**

- Sharon: The i21Now Facilities Subcommittee was entered into survey monkey. Midori asked that we only distribute it to Toya's students at MBHS. Toya will have her students take the survey this week (by Friday March 14th).
- Sharon: The video was completed on Monday, March 10<sup>th</sup>. The students were asked some of the questions from the survey and Toya videotaped them. Communications Department will edit the video.
- Matt: The final meeting has not been formalized yet. There will be actionable items. Some of the things coming out of the Broadband committee: It is no longer a choice; broadband has got to get to every student's home. Solve for that. Infrastructure says we have to support the device to the school and the home. Digital Policy & Tools are saying that every single student will have a device in their hands and it will take home.
- Lee: Listed some of the committee recommendations and next steps
  1. Ideas – Slides: vision, themes, concepts, and principals
  2. Video of students
  3. Survey results (limited sample)
  4. Design concepts from committee
    - Next steps:
    - Survey-Broader Reach
    - Design Guide Update
